

HOW TO MAXIMIZE GOH CONSULTING

GOH CONSULTING

Goal

Get the most out of Goh Consulting and increase your chances of success

- The most successful clients I've worked with do this, and it's led to doubling/ tripling their business in a span of months

Common Patterns Of Successful Clients

All of the most successful clients doing consistent 6 figures to high 5 figures a month follow these common patterns:

- Lead with value first approach -> highest leverage thing you can do
- Watch all the video modules and implement
- Join group calls and learn
- Network with people ahead of you
 - DM them, be active in the community

Group Calls

Exposure is huge. When you're around guys who are doing more than you, you get exposed to what is really possible

- Comfort and complacency are the killers of growth
- Group calls give you exposure to people in the community who are doing better than you, whom you can directly connect with

Networking

Everybody in Goh Consulting is an expert in a specific field

- Reach out to people ahead of you or people better than you at certain aspects of business that you're weak at.

For example, if your A+ problem is appointment setting, reach out to someone who's mastered that skill

Value First

Provide value first and expect nothing in return

- Celebrate your wins
- Celebrate other people's wins
- Ask questions
- Provide value
